

**STRAIGHT-SIDED PRESS BRET**  
**Type PMX 80 - 800 T.**

**A1269**

**TECHNICAL DATA**

|  |                                  |
|--|----------------------------------|
| Capacity                                   | 800 T.                           |
| Fixed stroke                               | 400 mm                           |
| Die height (crankshaft LDC, adjustment up) | 1100 mm                          |
| Stroking rate                              | 28 str/mn                        |
| Table                                      | 1000 x 900 mm                    |
| Thickness of table                         | 200 mm                           |
| Way between uprights                       | 1240 mm                          |
| Lateral openings in uprights               | L/R 600 mm<br>Top/Bottom 1150 mm |
| Adjustable positive ejection in ram        |                                  |
| Positive ejection in table                 | 3<br>stroke : 180 mm             |
| Centralised lubrication                    |                                  |
| Main motor                                 | 110 kW                           |
| Dimensions of machine:                     |                                  |
| width x depth:                             | 3950 x 3200 mm                   |
| height over the floor:                     | 6800 mm                          |
| total height:                              | 9900 mm                          |
| Weight of machine                          | 61 T.                            |
