

DROP FORGING HAMMER MONTBARD L.G. 1500

A0840

TECHNICAL DATA

Weight of ram without die	1500 kg
Max. height of fall	2225 mm
Approx. number of blows	90 str/min
Daylights between the guides	650 mm
Length for falling ram	500 mm
Height of die holder (over the floor)	600 mm
Height over the floor	5400 mm
Height needed to disassemble the plate	9000 mm
Width	3500 mm
Plate section	560x50 mm
Force for each motor	25 HP
Load free speed	750 rpm
Compressed air consumption	1450 l/mn
Compressed air pressure	6 à 7.5 kg/cm ²
Weight of the anvil block	30 T.
Total weight of tup	57 T.
Max. force with die	3800 kg/m
